

UN-FLETCH

Debonder for Cyanoacrylate Glue GGL-DB

- Debonder for Cyanoacrylate glue, for easy removal of fletching of any kind of vanes and feathers from any kind of shaft
- Dissolves glue in few minutes
- Made in U.S.A.
- Available in 1 oz (28 g) bottles

DIRECTIONS: Remove cap and cut off top 1/32" while holding bottle upright. Will dissolve cured cyanoacrylate (CA glue) within a few minutes. Also removes paint and most adhesive residue. To separate bonded skin, apply UN-FLETCH and gently roll fingers slowly; do not pull skin apart! Wash skin with soap and water.

STORE AWAY FROM CA ADHESIVES

WARNING: COMBUSTIBLE LIQUID.

Keep away from heat and open flame. If contact with eyes occurs, flush with water. Do not take internally. Attacks most plastics.

KEEP OUT OF REACH OF CHILDREN
