

ULTRA FLETCH

Cyanoacrylate Extra Thick Glue

- Cyanoacrylate gel glue, for perfect fletching of any kind of vanes and feathers on any kind of shaft
- Gel structure to fill the gap between the base of the vane or feather and the arrow shaft
- Dries in 15 to 25 seconds depending from porosity of materials coupled
- Can be used also to bond permanently nock pins to shafts
- Made in U.S.A. specifically for Archery applications
- Available in ½ oz (14.2 g) plastic bottles

DIRECTIONS: Remove cap and cut off top 1/32" while holding bottle upright. Apply to one surface, then hold parts tightly together for 10-25 seconds. Full strength is reached in 3 hours. Wipe off tip and replace cap.

STORE IN A COOL, DRY PLACE

WARNING: EYE, RESPIRATORY, AND SKIN IRRITANT. BONDS SKIN IN SECONDS. Contains cyanoacrylate ester. Do not breathe fumes. If contact with eyes occurs, flush with water only and GET MEDICAL ATTENTION. If skin bonding occurs, peel, don't pull; soak in UN-FLETCH or acetone if necessary. Use with adequate ventilation.

KEEP OUT OF REACH OF CHILDREN
