

# IC-LOC Low Strength (Purple) Thread Locker GLO-PR

- Prevents loosening of small screws
- Removable with hand tools
- Perfect to lock align grub screws of all GILLO Risers
- Made in U.S.A.
- Available in 0.34 fl. oz (10 ml) bottles

#### DIRECTIONS:

Shake well. Unscrew cap and cut off tip. Apply IC-LOC Purple to clean and dry threaded areas before assembling non-plastic parts. Product sets in 10 minutes and full cure within 24 hours.

IC-LOC Purple is anaerobic and cures in absence of air, which occurs when a bolt, screw or nut is tightened. IC-LOC Purple prevents loosening of small fasteners from normal use and vibrations, but parts can still be disassembled with hand tools.

IC-LOC Purple seals and prevents rusting of threads. Cured Temperature range is -60°F to + 300°F (-51°C to +149°C). May attack some plastics. Remove residue with a damp cloth

**KEEP AWAY FROM THE REACH OF CHILDREN!**

#### WARNING: EYE AND SKIN IRRITANT!

Contains methacrylate esters. If eye contact occurs, flush with water only and GET MEDICAL ATTENTION.

May cause allergic skin reaction.

If swallowed, do not induce vomiting unless directed to do so by medical personnel.
